

Quality Outreach report September of 2015

Quality Outreach Update

We moved Quality Outreach to the Quality Group earlier this year, here is a summary of the Bug logging activities over the past six months.

We now have 48 FOSS Projects and their developers listed on the [Wiki](#) page, they have been regularly contacted to announce the availability of Early Access (EA) builds based on various OpenJDK Projects, and encouraged to report back any issues they found during their testing.

Developers from 10 of the 48 participating projects filed 23 new issues in the JDK Bug System, more information in the table below.

Priority	Fixed	In progress	Duplicate	Open	Total
P1	0	0	0	0	0
P2	7	2	1	0	10
P3	3	8	0	1	12
P4	0	1	0	0	1
Total Unique Issues	10	11	1	1	23

Components	P1	P2	P3	P4	Total
hotspot	0	5	2	1	8
core-libs	0	2	3	0	5
tools	0	3	4	0	7
xml	0	0	1	0	1
client-libs	0	0	1	0	1
javafx	0	0	1	0	1
Total Unique Issues	0	10	12	1	23

Raised in version	Fixed	In Progress	Duplicate	Open	Total
JDK 9 EA builds	9	9	1	0	19
JDK 8 Update EA builds	1	2	0	1	4
	10	11	1	1	23

The following testers who submitted significant bug reports deserve special mention:

- Apache Lucene
- JaCoCo
- Apache Groovy
- Hazelcast
- Apache Ant.

Valuable reports were also received from :

- Gradle
- Jitwatch
- AssertJ
- Apache JMeter
- ElasticSearch

I expect to provide an update in 6 months from now, February'2016
