Push Requests

During the later stages of a release cycle, the release enters rampdown. If a change needs to be pushed to a release in rampdown, push approval can still be requested using the jdk23u-critical-request label. As the name of this tag suggests, this process is intended for fixes such as major regressions that must make the release. The maintainers may approve with jdk23u-critical-yes. Once the requester has pushed a critically approved fix it will automatically be included in the targeted release.

Timelines

JDK 23.0.1 timeline

- Jul 23rd RDP2
- Mid Oct 2024 GA

JDK 23.0.2 timeline

- Oct 22nd RDP2
- Mid Jan 2025 GA
